REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Easton:

The complexities of our Town Government and the problems facing our fast-growing community increase each succeeding year and 1980 was no exception.

We are continually concerned with the increased service demands of a growing community, employee concerns over adequate wages and fringe benefits and citizen concerns over ever-increasing tax rates.

At our annual Town Meeting in May, it was necessary to request an override of the 4% State-imposed tax cap, in order to provide the service needs of our fast-growing community. Approval was given by the Town Meeting to add four additional police officers, four additional firefighters, a new ambulance, and a new fire engine, together with providing for highway and drainage needs.

With the ever-increasing concern for the adequacy of our Town water system, approval was given for a bond issue to develop an additional well site. The quality and quantity of our irreplaceable water system needs continual attention and is an area that is of constant concern to the Board.

Another area of constant concern is the rapid growth of our community and the impact such growth has, in so many ways, on our community. Easton is the second fastest growing community in the fastest growing area in Massachusetts. The Planning and Zoning Board, in concert with the Board of Selectmen have addressed this concern and will be presenting recommendations at the 1981 Annual Town Meeting for voter consideration.

At the Annual Town Election in May, Lawrence M. Douglas and Judson C. Walton were both re-elected for a three-year term.

The hands-down issue of Statewide community interest in 1980 was the passage of Proposition 2½. This referendum question was approved by more than 60% of the voters both in Massachusetts and in Easton. The passage of Proposition 2½ will have a most significant impact on our fiscal year 1982 budget, requiring a reduction of appropriations in the order of 15%. Proposition 2½ is particularly devastating to a fast-growing community such as Easton, with increasing service demands. Of additional concern under Proposition 2½ is the lack of exclusion of fixed costs such as debt and interest, County retirement and employee health insurance, together with ignoring the impact of inflation, currently running at 12%, on the cost of goods and services.

Our Board feels fortunate in having so many dedicated Town employees who perform their job responsibilities in a conscientious and competent manner. We were indeed saddened over the passing, this past year, of one such employee, George W. Newman, Water Department Superintendent.

Although we are pleased with the many competent citizens who serve voluntarily on our numerous Town Boards, Commissions and Committees, we are still concerned over the degree of apathy that seems to pervade our community as evidenced by attendance at Town Meetings and in applications for various committee vacancies.

We would like to express our appreciation to Richard Howe, Town Administrator, for his valued assistance to the Board of Selectmen, and also to each of our Town Department Heads who have responded so adequately to the many requests placed upon them by our Board and by the citizens of Easton.

Respectfully submitted,

BOARD OF SELECTMEN

Donald E. Anderson, Chairman

Richard W. Martin, Clerk

James D. Mullen, Jr.

Lawrence M. Douglas

Judson C. Walton

REPORT OF THE TOWN ADMINISTRATOR

1980 marked the end of my first full year as Town Administrator. It was a year of considerable learning and significant progress in the administration of town government.

A major commitment of time has been devoted to organizing agendas, records, and follow-up for meetings of the Board of Selectmen. There were 62 Board meetings in 1980, with the largest number occurring in the spring as the budget and warrant were prepared for Town Meeting. In addition, I have attended an average of three other evening meetings a month to provide information and assistance to other town committees.

Aside from budget and warrant preparations and meeting organization, my greatest area of responsibility lies in managing personnel. During the past year, I was involved in screening and hiring a new Public Works Director, a new Director of Recreation and Council on Aging, a new Veterans Agent, a new Water Superintendent, a new Town Accountant, new assistants in the Engineering and Water Divisions, and several new clerical employees. In addition, four new contracts were negotiated with our employee unions, and a number of grievances were resolved. More must be done in the coming year if we are to provide a professional personnel system for our 150 town employees.

An important part of the Administrator's role is to provide administrative direction and coordination for the 14 major town departments. This may involve serving as an ombudsman for citizen complaints, conducting research and implementing management changes, and carrying out policy directives of the Selectmen and Town Meeting.

During the past year I have also been involved in growth planning and economic development activities. The Industrial Development Financing Authority, of which I am clerk, approved three projects for revenue bond financing which will accelerate development of the Easton Industrial Park and North Easton's Main Street area. With the assistance of Old Colony Planning Council, we drafted and submitted a Commercial Area Revitalization District plan which was accepted by the State and will provide increased financing for major renovations in North Easton.

Our application for a \$10,000 planning grant was approved by the State and this has generated a helpful report on growth in Easton and a number of steps for controlling growth that will be considered by Town Meeting. We were also successful in receiving a \$2,000 energy grant for technical audits of two municipal buildings.

During 1981, I expect to be heavily involved with implementing Proposition 2½, which will mean some cutbacks in services as well as an opportunity for some long overdue economies and management improvements.

I would like to express my appreciation to the Selectmen for their dedication and support, to the concerned citizens who take time to volunteer for service on other boards and commissions, and to a hard-working group of town employees who perform their functions competently and without complaint and who generally receive little recognition for their efforts.

Respectfully submitted,

Richard T. Howe
Town Administrator

REPORT OF THE SUPERINTENDENT

To the Easton School Committee:

As Superintendent of Schools, I hereby submit this, my fifth annual report and the ninety-fifth of a series since the Town authorized a Superintendent of Schools.

SCHOOL ENROLLMENTS

The total school enrollment decreased by 76 students between January 1980 and October 1, 1980. However, the school enrollment increased by 33 students between October 1980 and January 1981. In addition, the total number of Easton children enrolled in private and other schools outside the district has risen to 196, resulting in a total of 3852 school aged children residing in our community.

During the year, we experienced the closing of one private school, The Lombard School, and the certification of a new one, the Isabelle Grace Hyde School.

ELEMENTARY

The Sheep Pasture Program, a joint effort of the Natural Resources Trust and the Easton school department, has been expanded and is now more integrated into the science and outdoor life program. This unique program provides innovative, meaningful instruction and experiences through the natural and financial resources as provided by the late Elise Ames Parker and the Natural Resources Trust.

Frank Sahl, Grade 6 teacher from the Middle School, was chosen as the first administrative intern under a new program of professional development which was introduced in the fall.

Under the leadership of George Cross, Director of Elementary Education, curriculum guides were developed in mathematics, social studies, and English.

SECONDARY

With the assistance of federal funds, a career counselor, Elizabeth Savery, was added to the junior and senior high guidance program. Also with federal funding, a parttime psychologist was added at the Junior High School. Kareen Gilbert was chosen for the new position.

An innovative cooperative program between junior high school and elementary students and teachers was developed by Bruce Palombo, Guidance Counselor, and Barbara Kinsman, Grade 4 teacher at Parkview School.

Principal John Walsh of the Easton Junior High School for the second year served as coordinator for Project APT, a summer program for gifted students at the Grade 8-9 level. This program is a collaboration between Curry College and several area schools under the direction of Gerard Linehan of our junior high staff.

At the senior high, a new grading system was developed through the combined efforts of parents, students, and staff.

Tailoring and modification of courses and programs to meet the needs of the students continued throughout the year. Some example are Biology II, an advanced course to replace several undersubscribed courses, a study skills program, and Project DO CARE being moved into the regular school day. The Child Care unit, previously housed at Eastondale School after school hours, was moved to Parkview School where DO CARE students now begin during period seven.

Student achievement continues to be noteworthy: two National Merit Scholarship Finalists; athletic championships: one New England, one State, and four Hockomock League in addition to several semifinalist positions; statewide prizes in industrial occupations. The band and orchestra continue to bring recognition and acclaim to their performances.

SPECIAL SERVICES

We continue to provide support programs to some 500 pupils, aged 3 to 21 years, in need of special services. During this past year, Project EARly, the preschool program, was moved from Eastondale School to Parkview School and a new self-contained program was organized at the Easton Junior High School. Collaboration continues, under Project SPOKE, with Foxboro, Mansfield, and Norton. Our special education program, under the leadership of William Simmons, continues to receive high praise from the state officials and area educators.

GENERAL

The standardized testing program continued at the elementary and secondary levels, and our first phase plan of the statewide Basic Skills Improvement Program was approved as submitted,

ESCAPE, the Summer School program, continued this year as a full day program and was directed by Barbara Kinsman. Once again the program offered employment to many secondary school pupils.

The Parent Advisory Councils continue to provide welcomed services. Their fundraising proceeds have provided supplementary and enrichment programs to students, for which we are all most appreciative.

HAL, the High Ability Learners program, provides valuable experiences through the guidance and coordination of Annabelle Hoyle who was appointed in January 1980. In addition to many other activities, Mrs. Hoyle with the cooperation of staff and parents introduced the Great Books Program into our system. The HAL program functions in the elementary and junior high schools.

The Easton Teachers' Center (ETC) was approved for a second year of funding and is performing a valuable service to the staff. Under the direction of Joanne Galipault, the Center has received additional grant money to fund an Arts Infusion Program and an Audiovisual Production Project. The original grant application was used by the Massachusetts Department of Education as a model for teacher center proposals.

Richard Lombardi joined our staff in the fall as Business Manager, a position which had been vacant since January 1980.

The School Committee policy project was completed, thereby providing a clear sense of direction to the administration and staff.

A new staff evaluation process was developed by a large segment of the staff in cooperation with the Easton Teachers Association. Based on goal setting by individuals, the outcome should improve instruction.

FACILITIES

The voters at the 1980 Annual Town Meeting approved the acquisition and renovation of Moreau Hall. This building will be converted to elementary classrooms. Elementary buildings will house grades kindergarten through grade five and/or six. By shifting the grade seven to the Middle School, all grade nine students can be housed in the Junior High School. The grade nine class has been split between the two buildings for nearly 10 years. The new facilities will also bring to an end the leasing of Frothingham Hall, which has been used since 1974.

With the ever-increasing cost of utilities, several energy-saving projects were undertaken, including more efficient lighting, insulation, and placing the Oliver Ames High School heating system under computer control.

CLOSING COMMENTS

After one year of trying to live under the constraints of a 4% budget cap imposed by the Governor, both the Selectmen and School Committee found it necessary to ask the voters to override the cap and approve budget increases in excess of 10% for Fiscal Year 1981. Spiraling inflation and reduced state aid combined to place an increased burden on the local property owners. In November, the voters, in a mood of utter frustration, voted to adopt Proposition 2½. This plan, unlike the Governor's spending cap which allowed

an increase of up to 4% or a larger increase if approved at the Town Meeting, required Easton to reduce expenditures by 15% below last year's level of funding.

The effect on the school system means a Fiscal Year 1982 budget which will be approximately one and one-half million dollars less than FY81. All other town agencies face proportionate reductions. Unless the state legislature provides some type of relief, the results will be increased class sizes, reduced services, and massive layoffs of school personnel. At this time, the real impact on the student is immeasurable, but the prognosis is not good. While it may be true that "more" does not necessarily mean "better," in this case "less" will result in "not as good."

Due to the current constraints of Proposition 2½, it will be necessary to provide contingency funds in anticipation of increases in the uncontrolled cost of supplies and utilities. These contingencies can only be provided through deeper cuts in student services.

In order to offset some of the impact, it is recommended that Eastondale, Furnace Village, and Unionville Buildings be closed and these programs moved to larger buildings.

Until a program of tax reform is approved which will provide adequate funding for all social services, education will be in competition with other agencies for too few dollars to really do the job.

I express my appreciation to the parents and other citizens who, along with a devoted staff, combine their efforts in support of our most precious commodity, our youth and our future.

Respectfully submitted,

John T. Farrington

REPORT OF THE SCHOOL COMMITTEE

The Easton School Committee submits the following report for 1980. We are grateful for the many years of dedicated service of those who retired during the year: Jean Barry, an elementary teacher for 17 years; and William Walker, a custodian for 8 years.

Leo McEvoy, Chairman of the Committee, resigned on February 11, 1980 and Joseph F. Scowcroft, Jr. was elected Chairman on March 24, 1980. The Committee functioned with four members until May.

At the town election in May 1980, Joseph F. Scowcroft, Jr. was re-elected for a three-year term, while William Gloekler was elected to a three-year term, and Constance Pozzo was elected to fill the unexpired two-year term. On May 19, 1980 the School Committee reorganized with Joseph F. Scowcroft, Jr. elected as Chairman and Robert Nisenbaum as Vice-Chairman. Andrew Miller, Jr., Assistant Superintendent of Schools, was elected Secretary of the Committee.

The financing of public education continues to be a major problem area, and the fiscal year 1981 budget was \$637,870. over the 4% cap.

The School Committee Policy project which began in 1978 was completed and the Policy notebooks were distributed to all administrators. This process will be ongoing and will be continued as necessary to keep the Policies current.

This past year six subcommittees consisting of parents, teachers, and staff worked to determine weaknesses in order to improve our Basic Skills under State guidelines. Also, the testing program was reinstituted in the spring of 1980.

The School Committee approved an Administrative Intern Program whereby a qualified teacher worked between the Central Office and the Middle School.

In order to combat rising energy costs a computerized heating control system was installed at the High School to reduce energy consumption.

Two subcommittees, chaired by George Cross and Andrew Miller, Jr., worked over one year in developing input from staff and other systems in order to introduce a new teacher evaluation process. This was approved by the School Committee in June of 1980 and implemented in September 1980.

The School Committee expresses its gratitude to the Easton Fire Department for their cooperation in the extensive CPR program instituted in our school system.

One of the joyous moments of the year existed when the Easton School Committee was able to share in the happiness that Jim Craig helped produce while participating with the 1980 United States Olympic Hockey Team by recognizing his accomplishment via a proclamation.

Annabelle Hoyle was appointed coordinator for the High Ability Learners Program (HAL) on January 7, 1980. This enrichment program offers children in Grades 4 through 8, who are identified by CAT scores and teacher recommendations, an opportunity to independently develop a contract which they will complete, sometimes with a mentor within the community. Staff and community resources have played a vital part in this program.

This past year the Town Meeting approved the purchase of Moreau Hall which will be utilized, after reconstruction, in September 1981 as a school facility to accommodate elementary students.

In June 1980, the School Committee authorized a Superintendent Selection Advisory Committee be organized to assist in the comprehensive process of selecting a Superintendent of Schools. The membership consisted of a secondary teacher, elementary teacher, secondary and elementary administrator, department head, elementary and secondary Parent Advisory Council representative, four citizens at large, one student and alternate, and one special education representative.

Acting as Consultants to both committees were Andrew Miller, Jr., Assistant Superintendent of Schools; William Simmons, Director of Special Services; and Middle School Principal, Jack Buckley. The School Committee wishes to express its gratitude to those involved for the professional and timely manner in which the process proceeded.

In light of the passage of Proposition 2½ in November 1980, the 1981-82 budget preparations took on new dimensions. Faced with reductions which would likely exceed \$1,500,000.00, the Committee and administration proceeded to develop both an austere 1981-82 budget as well as a 2½ budget. Where appropriate, the Committee has attempted to retain the integrity of all programs in the system. Others, such as Driver Education, Evening School, Summer School, etc. will have to be self-supporting. Factually, expenses represent 20% of the school budget while salaries represent 80%. The following reductions in the expense budget, such as library books and supplies, field trips, instructional supplies, replacement of equipment, acquisition of equipment, and transportation—although are devastating reductions to the educational process, represent a small percentage of the total reductions necessary. The major reductions will affect classroom teachers, instructional aides, support personnel, coaches, and administration. This experience has been extremely painful for all involved—School Committee, administration, support personnel, and our educators. However, we promise the best educational opportunities available with the limited resources due to the mandate of Proposition 2½.

We appreciate the cooperation and continued support of the citizens of Easton in our efforts to provide the best possible education for our children.

**SPECIAL TOWN MEETING
WARRANT
MAY 13, 1980
COMMONWEALTH OF MASSACHUSETTS**

BRISTOL, SS. To either of the Constables of the Town of Easton in the County of Bristol. GREETINGS:

In the name of the Commonwealth, you are hereby directed to notify and warn the inhabitants of the Town of Easton qualified to vote in elections and Town affairs to meet in the Oliver Ames High School Auditorium in said Easton on Tuesday, the 13th day of May, next, at 8:00 p.m. then and there to act upon the following Articles:

ARTICLE 1. To see if the Town will vote to appropriate a sum of money for the purpose of obtaining consulting services for hydrological and geological studies pertaining to the proposed Chestnut Knoll Estates subdivision with such services to be rendered for the Planning and Zoning Board under the direction of the Town Engineer and to determine whether the funds will be appropriated from available funds in the Treasury or by borrowing under the provisions of Chapter 44 of the General Laws, or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 2. To see if the Town will vote to appropriate a sum of money to be used as a part of the salary account of the Town Administrator and applied as deferred compensation, and to determine from which available funds in the treasury the money shall be provided, or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 3. To see if the Town will vote to appropriate a sum of money to pay outstanding charges of Special Counsel pertaining to labor relations and collective bargaining, and to determine from which available funds in the treasury the money shall be provided, or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 4. To see if the Town will vote to rescind the vote of the Special Town Meeting held on May 10, 1976 for Article 2 thereof and to vote and ratify such vote as follows:

Article 2: Voted to accept from the organization known as the Easton Little League, Inc., hereinafter known as the League, the sum of money necessary to purchase, and file at the Registry of Deeds of Bristol County a parcel of land for Recreational purposes, to authorize the Board of Selectmen to use this gift of money from the League to purchase a certain parcel of land recorded in the Bristol County Registry of Deed in Book 1459, Page 145 owned now or formerly by Slade Realty consisting of

15.56 acres more or less for recreational purposes, and to charge the Board of Selectmen with the duty to sell above referenced parcel of land to the League for the sum of \$1.00 for recreational purposes, or to take any other action relative thereto.

Submitted by Recreation Commission

ARTICLE 5. To transact any other business that may legally come before said meeting.

You are directed to serve this Warrant by posting attested copies thereof one at each meeting house and post office in said Town, and one at the Oliver Ames High School Auditorium and one in the Town Offices, fourteen days at least before the time of holding said meeting.

Given under our hands this 28th day of April in the year nineteen hundred and eighty.

Town Clerk

ADJOURNED ANNUAL TOWN MEETING Wednesday, May 28, 1980

At 8:30 p.m. there were 200 voters present. Moderator Richard Dailey called the 5th session of the 255th Annual Town Meeting to order.

ARTICLE 39. VOTED to raise and appropriate \$7,000. to be expended by the Public Works Department for a program of aerial spraying to control gypsy moths.

ARTICLE 40. VOTED to amend the By-Laws of the Town by inserting a new Article 29 after Article 28 which will provide as follows:

ARTICLE 29 — WETLAND PROTECTION

1. The purpose of this by-law is to protect the wetlands of the Town of Easton by controlling activities deemed to have a significant effect upon wetland values, including but not limited to the following: Public or private water supply, groundwater, flood control, erosion control, storm damage, water pollution, fisheries, wildlife, recreation, and esthetics. No person shall remove, fill, dredge, or alter any bank, fresh water wetland, flat, marsh, meadow, bog, swamp, or lands bordering on any estuary, creek, river, stream, pond or lake, or any land under said waters or any land subject to flooding, other than in the course of maintaining, repairing or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public and used to provide electric, gas, water, telephone, telegraph and other telecommunication services, without filing written notice of his intention so to remove, fill, dredge, or alter and without receiving and complying with an order of conditions, and provided all appeal periods have elapsed. Such notice shall be sent by certified mail to the Easton Conservation Commission, including such plans as may be necessary to describe such proposed activity and its effect on the environment. The same notice, plans and specifications required to be filed by an applicant under Massachusetts General Laws, Chapter 131, Section 40, will be accepted as fulfilling the requirements of this by-law. The said Commission, in its discretion, may hear any oral presentation under this by-law at the same public hearing required to be held under the provisions of said Chapter 131, Section 40, of the Massachusetts General Laws. Definitions, time frames, and

procedures, insofar as applicable, set forth in said Chapter and section and in the Regulations promulgated by the Department of Environmental Quality Engineering on July 28, 1978 are hereby made a part of this by-law, with the exception that all local permits must first be obtained.

2. The term "person," shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof, administrative agency, public or quasi-public corporation or body, or any other legal entity or its legal representative, agents or assigns.

3. The Commission shall make a determination as to whether or not this by-law applies to a specific situation prior to the filing of a written notice of intent under the provisions hereof, within ten days of the receipt of a written request sent by certified mail from any person desiring such determination. The Commission, its agent, officers and employees, may enter upon the land upon which the proposed work is to be done in response to a request for a prior determination or for the purpose of carrying out its duties under this by-law and may make or cause to be made such examination or survey as deemed necessary.

4. The Conservation Commission is empowered to deny permission for any removal, dredging, filling, or altering of subject lands within the town, if in its judgment, such denial is necessary to preserve environmental quality of either or both the subject lands and contiguous lands. Due consideration shall be given to possible effects of the proposal on all values to be protected under this by-law and to any demonstrated hardship on the Petitioner by reason of a denial, as brought forth at the public hearing.

5. The Commission may, as an alternative to a denial, impose such conditions, as it deems necessary to contribute to the protection and preservation of subject lands in accordance with the purposes of this by-law. Any Order of Conditions issued under this by-law shall be subject to the same constraints and be identical to any such order issued by the Easton Conservation Commission under the provisions of Massachusetts General Laws, Chapter 131, Section 40.

6. The notice required by the first paragraph of this by-law shall not apply to emergency projects necessary for the protection of the health or safety of the citizens of Easton and to be performed or ordered to be performed by an administrative agency of the Commonwealth or by the Town. Emergency projects shall mean any projects certified to be an emergency by the Commissioner of the Department of Environmental Quality Engineering and the

Conservation Commission if this by-law and Massachusetts General Laws, Chapter 131, Section 40, are both applicable, or by the Conservation Commission if only this by-law is applicable. In no case shall any removal, filling, dredging or alteration authorized by such certification extend beyond the time necessary to abate the emergency.

A motion was then made to reconsider Article 39. NOT A VOTE.

ARTICLE 41. VOTED to Raise and Appropriate \$2,800. to reimburse the Conservation Commission Fund previously established under the provisions of Chapter 40, Section 5 of the General Laws, for money expended to purchase a certain parcel of land situated northerly of Chestnut Street, owned now or formerly by Mary McClurg, consisting of five acres, more or less, shown as the second tract of land in a deed conveying said land from George McClurg to Mary McClurg, dated February 6, 1975, recorded with Bristol County Northern District Registry of Deeds, Book 1675, pages 44 and 45.

It was then VOTED to increase the appropriations limit established by Chapter 151 of the Acts of 1979 by \$1,282,345. so that the appropriations limit as so increased will be \$11,474,192. (183 yes, 28 no.)

It was then VOTED to increase the levy limit established by Chapter 151 of the Acts of 1979, by not more than \$1,295,183. so that the Levy Limit as so increased will not be more than \$11,815,210. (183 yes, 7 no.)

ARTICLE 42. VOTED to authorize the Board of Selectmen, acting for and in behalf of the Town, to purchase, acquire by gift, or to take by right of Eminent Domain, for Highway purposes a certain parcel of land consisting of 5,150 square feet, owned now or formerly by Louis A. Baynes and Nancy J. Baynes, husband and wife, situated easterly of Center Street, in that part of Easton called North Easton, shown as Parcel 3 on a plan of land entitled "Plan of Land in Easton, Mass., owned by Matthew A. Welch, dated February 8, 1972" recorded with Bristol County Northern District Registry of Deeds, Plan Book 160, page 39. UNANIMOUS VOTE.

ARTICLE 43. VOTED to authorize the Board of Selectmen to petition the legislature to enact a Special Act to exempt the Town of Easton from the provisions of Chapter 471 of the Acts of 1972, which requires cities and towns to join a Veterans Service District or appoint a full-time Veterans' Agent, at the end of the term of a part-time Veterans' Agent, and to allow it to appoint a Part-Time Veterans' Agent to replace the Part-Time Veterans' Agent who has recently retired from such position, with said position of Veterans' Agent to continue to be classified as a part-time position. UNANIMOUS VOTE.

ARTICLE 44. VOTED to accept Mockingbird Lane as a public way from Station 0+20 to Station 4+60 as shown on a plan of land entitled "Definitive Plan of Land in Easton, Bristol County, Mass." in Easton, Mass., by Roy C. Anderson Jr. dated April 13, 1971 and approved by the Planning & Zoning Board on August 3, 1971 and recorded in the Bristol County Northern District

Registry of Deeds, Plan Book 126, pages 45-46. The acceptance of said street is contingent upon the owner of said street conveying the Deed to the land by way of "Deed of Gift" to the Town within sixty (60) days of the vote of such acceptance, and the said Deed to be deposited at the Selectmen's Office with an as-built plan of said land suitable for recording at the Bristol County Northern District Registry of Deeds, together with a payment to the Town covering all recording fees and costs of such instruments at the Registry. UNANIMOUS VOTE.

ARTICLE 45. VOTED to accept Pheasant Lane as a public way from Station 0+00 to Station 3+18.00 as shown on a plan of land entitled "Summer Heights" in Easton, Mass., by Hayward-Boynton and Williams, Inc. dated April 4, 1972 with revisions dated June 29, 1972 and approved by the Planning & Zoning Board on July 12, 1972 and recorded in the Bristol County Northern District Registry of Deeds, Plan Book 132, pages 47-52. The acceptance of said street is contingent upon the owner of said street conveying the Deed to the land by way of "Deed of Gift" to the Town within sixty (60) days of the vote of such acceptance, and the said Deed to be deposited at the Selectmen's Office with an as-built plan of said land suitable for recording at the Bristol County Northern District Registry of Deeds, together with a payment to the Town covering all recording fees and costs of such instruments at the Registry. UNANIMOUS VOTE.

ARTICLES 46 and 47. DISMISSED.

ARTICLE 48. At 10:25 p.m. it was moved and VOTED to dissolve the 1980 Annual Town Meeting. Total count for the evening - 257.

DPW - Bldg. & Grounds	Maintenance - Bldgs.	1,700.00
DPW - Water Div.	Expense	7,000.00
		\$12,700.00

ARTICLE 3. To see if the Town will vote to amend the By-Laws of the Town by adding thereto the following new Article:

ARTICLE 30 DISTURBANCES - Dispersing from Public Places

Section 1. Any officer authorized to make arrests may disperse, during the daytime or nighttime, any assembly of three or more persons who are on a public sidewalk or way, or in a public parking lot, or in a public place; or who are in any place to which the public has a right of access, or in any place to which members of the public have access as invitees, and by their presence or conduct, or outcries, or noise, or accosting persons of either sex, or throwing missiles or any object, or being disorderly, or creating or threatening to create a disturbance of the peace, or interfering with the free flow of pedestrian or vehicular traffic to the detriment of the public welfare.

Section 2. Persons so assembled who do not disperse when ordered, or remain within 500 feet of the place they were so directed to leave, may be arrested by any officer authorized to make arrests. Persons so dispersed who return to within 500 feet of the place they were so directed to leave, prior to the expiration of two hours, may be arrested and charged with failing to disperse.

Section 3. Any violation of the provisions of this Article shall be punishable by a fine of not less than \$100.00 nor more than \$200.00. Any subsequent conviction for violations of the provisions of this Article within a twelve month period shall be punishable by a fine of not less than \$200.00.

or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 4. To see if the Town will vote to accept the provisions of section 22D of Chapter 40 of the Massachusetts General Laws, as most recently amended, a fair and concise summary of said Section 22D being as follows: In a Town which accepts this section by majority vote of a town meeting the Board of Selectmen may establish traffic regulations authorizing the Chief of Police, or such Sergeants or other officers of higher rank as he may from time to time designate, to remove to some convenient place any vehicle parked or standing on any part of a way under the control of the municipality in such a manner as to impede in any way the removal or plowing of snow or ice, or in violation of any rule or regulation which prohibits the parking or standing of all vehicles on such ways or portions thereof at such time, and recites that whoever violates it shall be liable to charges for removal and storage of the vehicle as well as be subject to punishment by fine, or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 5. To see if the Town will vote to accept the provisions of section 20C of Chapter 90 of the Massachusetts General Laws, as most recently amended, a fair and concise summary of said section 20C being as follows: In any town which accepts the provisions of section 20C it shall be the duty of

every police officer who takes cognizance of a violation of any provision of any rule, regulation, order, ordinance or by-law regulating the parking of motor vehicles established for their respective city or town, forthwith to give the offender a notice, which shall be in tag form as provided in the section, to appear before the Clerk of the District Court having jurisdiction not later than 21 days after the violation, either personally or by mailing to such Clerk the amount of the fine, and the Board of Selectmen shall, from time to time, establish by rule or regulation a schedule of fines for offenses subject to the section, or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 6. A certain lot of land situated in Easton, in a Westerly direction from Columbus Avenue, and Sheridan Street; beginning at the NORTHEAST corner of said lot, thence WEST 2½° SOUTH 40 rods and 13 links to a heap of stones, thence SOUTH 2¾° WEST 53½ rods, thence EAST 2½° NORTH 46 rods and 5 links, thence

NORTH 6½° WEST 50 rods and 8 links to bounds first mentioned. Containing fourteen acres three quarters and thirty-five rods, more or less.

For title see deed from Paul H. Snow, Administrator of the Estate of Manuel Morgan, dated May 15, 1961, and recorded in said Deeds in Book 1387 at Page 138.

Excepting therefrom what has been conveyed from said parcels as follows:

(a) Order of Taking by the Board of Selectmen of the Town of Easton, dated May 23, 1955 and recorded in said Deeds in Book 1212 at Page 302.

(b) Deed from George N. Covett to the inhabitants of the Town of Easton, recorded May 18, 1956 in said Deeds in Book 1212 at Pages 303 and 304.

(c) Order of Taking by the Board of Selectmen of the Town of Easton, dated October 10, 1966 and recorded in said Deeds in Book 1492 at Pages 386 through 390.

Meaning and intending to convey approximately one hundred eighty (180) acres of land bordering, in part, upon Randall Street, in the Town of Easton, remaining in my name and conveyed to me by the said Harvard Trust Company, John B. Wilbur, et al., Wallace S. Gilmore, and Paul H. Snow, as referenced hereinabove, or to take any other action relative thereto.

Submitted by Conservation Commission

ARTICLE 7. To see if the Town will vote to appropriate a sum of money to purchase, to acquire by gift, or to take by right of eminent domain, for Conservation purposes, and the expenses therefor, the five certain parcels of land consisting of 180 acres, more or less, supposed to be owned by Robert F. Loverud and George Woron, Trustees of Easton Associates Trust, as more particularly described in the previous Article, and as shown on a plan on file in the Bristol County Northern District Registry of Deeds in Plan Book 64 - Page 25 entitled "Plan of land in Easton, showing conveyance trustee L. K. Wilbur Estate and the heirs of Durward W. Sisson to George N. Covett, dated August 25, 1955, Hayward, Surveyors," and to determine whether the money shall be obtained by taxation, by appropriation from available funds in the treasury, or by borrowing under the provisions of Chapter 44 of the General Laws, or to take any other action relative thereto.

Submitted by Conservation Commission

ARTICLE 8. To transact any other business that may legally come before said meeting.

You are directed to serve this Warrant by posting attested copies thereof one at each meeting house and post office in said Town, and one at the Oliver Ames High School Auditorium and one in the Town Offices, fourteen days at least before the time of holding said meeting.

Given under our hands this 11th day of September in the year nineteen hundred and eighty.

BALLOT QUESTION

QUESTION 1 PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 7, 1977, by a vote of 262-1, and on May 28, 1980, by a vote of 192-0? YES NO

SUMMARY

The proposed amendment would add a new article to the state Constitution which would prohibit discrimination against handicapped people. It would provide that no otherwise qualified handicapped individual could, on the sole basis of that handicap, be excluded from participation in, denied the benefits of, or subjected to discrimination in any program or activity.

QUESTION 2 LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 6, 1980, by a vote of 5-146, and on which no vote was taken by the Senate before May 7, 1980? YES NO

SUMMARY

The proposed law would limit certain taxes, and change laws relating to school budgets and compulsory binding arbitration. It would impose a limit on state and local taxes on real estate and personal property equal to 2½% of the full and fair cash value of the property being taxed. If a locality currently imposes a tax greater than 2½% of that cash value, the tax would have to be decrease by 15% each year until the 2½% level is reached. If a locality currently imposes a tax of less than 2½% it would not be allowed to increase the tax rate. In either situation, a city or town could raise its limit by a 2/3 local vote at a general election.

The proposed law would provide that the total taxes or real estate and personal property imposed by the state or by localities could never be increased by more than 2½% of the total taxes imposed for the preceding year, unless two thirds of the voters agreed to the increase at a general election.

It would further provide that no law or regulation which imposes additional costs on a city or town, or a law granting or increasing tax exemptions, would be effective unless the state agrees to assume the added cost. A division of the State Auditor's Department would determine the financial effect of laws and regulation on the various localities.

The proposal would limit the amount of money required to be appropriated for public schools to that amount voted by the local appropriating authority. It would also repeal the law which provides for compulsory binding arbitration when labor negotiations concerning police and fire personnel come to an impasse. In addition, the petition would provide that no county, district, or authority could impose any annual increase in costs on a locality of greater than 4% of the total of the year before.

The proposed law would also reduce the maximum excise tax rate on motor vehicles from \$66 per thousand to \$25 per thousand, and it would allow a state income tax deduction equal to one half of the rent paid for the taxpayer's principal place of residence.

QUESTION 3 LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 6, 1980, by a vote of 2-147, and on which no vote was taken by the Senate before May 7, 1980? YES NO

SUMMARY

The proposed law would limit local property taxes and state taxes and would provide for increased state aid for local educational purposes.

The act would limit local property taxes in the years 1981 through 1984 to the amount levied in the previous year increased by the percentage increase in personal income of the residents of the Commonwealth during the previous year. The local property tax limit could be exceeded to offset decreases in local aid, to cover shortages for prior years and to pay court judgments. Pension and retirement allowances, payments to other governmental units, principal and interest on any indebtedness, unemployment compensation, amounts required to be raised as a condition of a state or federal grant, and costs for special education programs would be excluded from the property tax limit.

These local limits would be reduced by any excess taxes actually collected over the tax limit for the preceding year. The limit would not apply to any municipality having a general tax rate of less than \$35 per thousand of equalized valuation. The tax limit could be exceeded by a two-thirds vote of the local appropriating body.

The cost of regional and independent vocational schools would be subject to the same limitations.

The proposed law would also limit state taxes imposed in the years 1981 through 1984 to an amount no greater than that imposed the previous year, increased by the percentage increase in the personal income of Massachusetts residents in the previous year.

This state law limit could be exceeded only to increase local aid or to assume other costs approved by a two-thirds vote of the state legislature. The amounts necessary to pay principal and interest on state indebtedness, pensions, retirement allowances, unemployment compensation, and court judgments and money required to be raised as a condition of a federal grant would not be subject to the state tax limit. The total amount of local aid for any year which would be subject to legislative appropriation could not be less than the total amount of aid for the preceding year increased by half the increase in collected state taxes during that preceding year. The state tax limit would be reduced by any excess taxed actually collected over the tax limit for the preceding year.

The proposed law also would require, subject to legislative appropriation, a gradual increase in the percentage of local educational costs paid by the Commonwealth to a level of 50% in 1984. The proposal would also require, again subject to legislative appropriation, that school aid paid by the Commonwealth in any year between 1981 through 1984 must be at least 15% greater than that provided in 1980.

QUESTION 4 REFERENDUM ON AN EXISTING LAW

Do you approve of a law summarized below, which was approved by the House of Representatives on November 1, 1979, by a vote of 83-62, and which was approved by the Senate on November 1, 1979?

YES NO

SUMMARY

The law provides for increases in the salaries of members of the legislature and the constitutional officers of the Commonwealth.

The law increases salaries of members of the legislature by an annual amount varying from \$1,853 to \$17,923. The size of the raise conferred on a particular individual depends upon his position within the legislature. The law has the effect of setting the base salary for a legislator at \$20,335, but under the law legislative salaries range as high as the approximately \$55,920 paid to the President of the Senate and the Speaker of the House of Representatives.

The salaries of the constitutional officers are increased either by \$20,000, in the case of the Governor, or \$10,000 in all other cases. The law raises the annual salary of the Governor to \$60,000, that of the Attorney General to \$47,500, and the salaries of the Lieutenant Governor, Secretary of the Commonwealth, Treasurer and Receiver General and the Auditor to \$40,000.

The law also amends the statutes pertaining to the organization of the offices of the Secretaries of Administration and Finance and of Human Services and to the compensation of senior officials within

those offices. It gives the Secretaries of Administration and Finance and of Human Services greater flexibility in establishing positions and setting salaries for those under their supervision.

QUESTION 5 PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on November 30, 1977, by a vote of 257-8, and on September 18, 1980, by a vote of 179-6? YES NO

SUMMARY

The proposed amendment would limit the power of the legislature to impose certain costs on cities and towns. It would provide that any law which imposed additional costs upon two or more cities or towns by regulating the compensation, hours, status, conditions, or benefits of municipal employment would not be effective within a municipality until it accepts the law by vote or appropriation of money. Local acceptance would not be required if the legislature either passed the law by a two-thirds vote, or provided, during the same session in which the law was enacted, that the additional costs would be assumed by the Commonwealth.

QUESTION 6 PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 7, 1977, by a vote of 264-0, and on September 19, 1980, by a vote of 162-0? YES NO

SUMMARY

The proposed amendment would change the procedure by which the legislature declares a measure to be an emergency law, making it effective when it is signed by the Governor. The amendment would allow the Legislature to make such a declaration by a voice vote, rather than by a recorded vote, as now required. The amendment would maintain the existing option allowing for a formal roll call vote.

Hereof fail not and make return of this warrant with your doings thereon at the time and place of said meeting.

REPORT OF THE AMES TRUST FUNDS

The following statement is supplied the Town Treasurer by the office of the Trustees of the Ames Trust Funds.

Following is a summary of the Ames Trust Funds held for the benefit of the Town of Easton as of December 31, 1980, together with an estimate of the 1980 income. The estimate for the 1981 income is based on the amounts which the various companies are now paying. This estimate does not allow for any deductions which may have to be made before the net income is paid over to the Town of Easton, neither does it take into consideration any reductions in dividends which might be made by the various companies.

REPORT OF THE WATER DIVISION

To the Honorable Board of Selectmen:

I respectfully submit the following report and pumping record for the year 1980.

Month	Gallons Pumped	Month	Gallons Pumped
January	44,193,900	July	59,356,600
February	41,613,200	August	49,759,700
March	46,127,300	September	53,237,200
April	44,134,500	October	45,959,600
May	52,310,100	November	42,002,900
June	55,460,900	December	45,564,100

Total Gallons Pumped-1980 — 579,720,000.

The greatest amount of water pumped in one week was during the week of July 13, when 16,326,800 gallons were pumped. The greatest amount pumped in one day was 2,729,600 gallons on June 25th.

136 new services were connected to our system during the year for the total of 4,082 active services.

The water division renewed 38 water services, dug up and repaired 36 service leaks.

We answered 1,682 service and emergency calls; replaced 13 hydrants (10 of these hit by vehicles) and added 1 hydrant to the system; repaired 6 broken water mains, 5 - 8" mains and 1 -2" mains.

The installation of 1,300 feet of 16" water main into pumping stations 2 and 4 on Washington Street was completed this past summer. This main enables us to run both pumping stations simultaneously and efficiently, increasing our output by 150 gallons per minute.

Our meter replacement program is underway and our new personnel are responding to their training quickly.

Engineering work is underway on our new well site on Red Mill Road and the corrosion control study is near completion. The water rate study by Amory Engineering, Inc. has been finalized.

In 1980, new subdivisions added to our system, 5,790 feet of 8" water main; 1,500 feet of 12" water main; 75 feet of 10" water main and 17 new fire hydrants.

The department spent much time this year at the town pool assisting the Recreation Department and Building & Grounds Department on the installation of a new pump and chlorination system. We also provided emergency repairs to the 12" underdrain which was damaged by vandals.

We were very fortunate this year to acquire some badly needed storage space at no cost. A building was given to us by Stonehill College for which we thank them. Wayne Benson donated his time and low bed trailer and with the assistance of our own Building & Grounds Dept. we moved the building to the D.P.W. yard on Center Street where it has been put to good use. Our thanks are also extended to Mr. Benson for his time and consideration.

Water is a limited vital resource; I urge everyone to practice conservation. If the drought of 1980 continues into 1981 we will be faced with a strict water ban and possible shut down of 2 wells due to the low water levels.

Our community continues to grow very rapidly but our water system cannot keep up with the growth, especially during peak demand periods. We must continue to explore for new well supplies and continue to reinforce our distribution system in those areas of growth.

The members of the Water Department wish to express their sympathy to the family of George Newman, former Superintendent of the division who passed away in November, 1980. George faithfully served the Town for 28 years. He is missed by all of us.

I would like to thank all Department heads for their fine cooperation throughout the year and especially the members of the Water Department, Ray Keyes, Chris McKenna, John Marsh, John Fresh and Dorothy Stone for all their extra effort and dedication throughout the year.

Respectfully submitted,

Wayne P. Southworth
Superintendent

REPORT OF THE HIGHWAY SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1980.

Turnpike Street from High Street to Route 138 was reconstructed and repaved with Type I Mix.

The following streets were sand sealed: Prospect Street from the Black Brook to Foundry Street, approximately one thousand feet of Highland Street, east from Foundry Street, and three thousand feet of Chestnut Street.

Pine Street and Chestnut Street were completed with road mix.

Drainage construction was completed at the following locations: Oliver Street and Main Street, Day Street, Park Street, Allen Road, Chestnut Street, Kennedy Circle, Peterson Road, Depot Street and Purchase Street.

William Street and Canton Street sidewalks reconstruction has been completed, also the Depot Street Bike Path has been completed.

Catch basins, culverts and drains were cleaned and repaired as needed.

During the winter months we hauled and spread cover material at the Landfill.

Roads and sidewalks have been sanded and plowed as needed.

I wish to thank the Director of Public Works, Office Manager, Water Department Secretary, Superintendents and Public Works Personnel for their cooperation during the year.

Respectfully submitted,

Fred L. Reynolds
Highway Superintendent

REPORT OF THE CEMETERY COMMISSION

To the Citizens of Easton:

The cemeteries of the Town were maintained by mowing, filling in sunken graves, making repairs to gravestones and general maintenance.

The following cemeteries were surveyed by the D.P.W. engineers and recorded in the Registry of Deeds in Bristol County seat in Taunton, Massachusetts; namely, Veterans' Cemetery on Church Street and the Bay Road Cemetery on Bay Road.

The Commission is making a study to install bronze plaques embedded in stone for all the cemeteries in Town which will denote the historic significance of all the cemeteries.

The Commission hopes that the balance of the quantity of cemeteries will be completed for surveying and recording in the Registry of Deeds in the near future.

Respectfully submitted,

Oscar Peterson, Chairman

William Leahey, Associate

Edward A. Cedarholm, Alternate

REPORT OF THE CONSERVATION COMMISSION

To the Citizens of Easton:

At the Town Meeting in May, the citizens of the Town passed a Wetlands Protection By-Law which will aid in the protection of local wetlands. It will prove to be an important step for the Town if General Laws Chapter 131, Section 40 (The Wetlands Protection Act) is weakened.

Although the building within the Town has slowed, three large developments have had wetlands hearings this year. Ten (10) public hearings were held and extensive field work by Commission members and town employees was done in preparation for writing the order of conditions.

The Queset Brook Advisory Committee submitted its final report. The group stressed continued protection of the Queset Brook corridor for the protection of local water supply. The report is available at the Commission office. Our thanks to the Committee for a job well done.

The Chemical Spray Advisory Committee finished a two (2) year study into the effects of spraying for insect control. Thorough research was done and the Commission lauds the efforts of the group.

Trail work has been done at Wheaton Farm by a crew from the Bristol County Soil Conservation District. Work on maintenance of the barn should continue and repair of the dike is a project the Commission hopes to do this year. Project Do-Care students at Oliver Ames High School have worked on several landscape projects on conservation lands this year.

Several important land acquisitions were completed in 1980. In the spring the Commission accepted a gift of 3 acres of land with a house and out buildings on Canton Street. The gift was from Shirley and Franks Tufts in memory of William H. Tufts. The house, after minor renovations, has been rented with the monies to be used for property upkeep and other conservation projects. A gift of 15 acres of land near the intersection of Washington and Depot Streets, including a proposed pond, was given by Matthew and Eleonore Welch. A gift of 10 acres, mostly flood plain, at the end of Dongary Road was given by Donald A. MacKinnon. 5.29 acres on Rockland Street was given by A. Krikis and 5 acres of wetlands was purchased off Chestnut Street. Ninety (90) acres of land adjacent to the school complex, Town Forest, and Parker Reservation was purchased in November. An Additional adjacent 90 acres was given to the Town by Easton Associates Trust. This large acquisition offers protection for the head waters of Black Brook and provides land for extension of school playing fields. 10 acres of flood plain adjacent to Fox Mountain and Beaver Brook Woods was purchased by the Natural Resources Trust (NRT) of Easton for conservation purposes and Stonehill College gave the NRT a small conservation easement of land on Queset Brook. The Commission gratefully thanks all these generous donors.

The Commission wishes to publicly thank all the departments who worked with us in 1980, particularly the members of the Department of Public Works for their engineering expertise.

Charles Hattaway resigned from the Commission after his election to the Board of Health. Chuck was an active member with engineering expertise that was invaluable to the Commission. Our thanks are extended to him and we hope his excellent work will continue on the Board of Health.

Respectfully submitted,

John E. Grant, Chairman
Alice B. McCarthy, Vice-Chairman
Henry D. Kennison
Robert J. Murphy
Eugene M. Nawrocki

REPORT OF THE COUNCIL ON AGING

To the Citizens of Easton:

It is the Council on Aging's goal to provide programs and services that will enable our senior citizens to maintain independent living in their homes and dignity in our community. We have more than 2100 residents over the age of 59 whom the Council on Aging served during 1980.

Our office at 136 Elm Street was staffed from 9 a.m. to 5 p.m. to help seniors obtain transportation, meals, homemakers, fuel assistance, legal advice, etc. The Council provided 13,900 hot lunches at the meal site in Parker Terrace Community Center, and delivered 3,120 meals to home-bound seniors. Our elderly residents rode the Shuttle Bus to grocery and department stores, doctors' offices, the hot lunch program and other appointments. The Council also provided transportation to health clinics, elections and town meetings as well as special events offered to all senior citizens of town. 8,566 passengers rode the bus during the year.

Our newsletter, the Coordinator, was mailed or delivered to 110 homes each month. It contained information on programs and services as well as current events of interest to seniors.

The Council wishes to thank the many volunteers, employees, town officials, and community groups who worked so diligently to make our programs a success. We hope to continue as many of our programs and services as possible in the coming year.

Respectfully submitted,

Robert J. Keefe, Chairman

AMES FREE LIBRARY

I herewith submit my report as Librarian of Ames Free Library of Easton, Inc., for the year ending December 31, 1980.

In 1980, the total number of volumes in the library rose to 48,723, with 1,347 new books being added during the year, 845 to the adult section and 502 to the children's room. The 1980 figure, which is 244 less than the previous year's total of 1,591 is the result of rising book prices that are higher each year. Generous contributions to the juvenile book budget were received from Mrs. William Hadwen Ames, donor of the children's room in 1931. They were used to purchase sets of encyclopedias and other works of nonfiction to enrich the children's collection.

There was a gain of 85 in the circulation of books during 1980, from 60,302 in 1979 to 60,387. Of this number, 34,057 were adult and 26,300 juvenile. Registration of borrowers' cards came to 1,452, 952 of them adult and 500 juvenile.

Memorable events at the library in 1980 included the library's part of the town celebration of Jim Craig's Day on May 18th, when a library scrapbook on the local hockey star was put on exhibit. During the summer months, a summer reading club was planned around the theme of water conservation and marine biology and attracted 22 children from grades 3-8. Participating in the Richardson-Olmsted Centennial Tour on September 27th, the library presented a display of old-time Easton photographs and original plans of Richardson's buildings and Olmsted's landscaping at Spring Hill. During the day-long tour, 105 visitors signed the library guest-book, among them Henry Hobson Richardson, grandson of the architect, the designer of Ames Free Library.

Throughout the year, tourists from all parts of this country and from Canada as well as groups of architectural students came to visit the famous library building.

REPORT OF THE HISTORICAL COMMISSION

To the Citizens of Easton:

In 1980 the Historical Commission continued to give the highest priority to monitoring Easton's growth. The commission expressed strong reservations to two developments in North Easton which it felt would erode the community character of that area. In general, the commission feels that continued residential development has reached the point where it is increasingly detrimental to the qualities that make our town an attractive place to live.

On the other hand, the commission in 1980 strongly supported the efforts to revitalize the North Easton Business District through the imaginative restoration of existing buildings. The commission also worked very hard to create a National Register District in Furnace Village, but the project has not been completed due to delays at the Massachusetts Historical Commission. Finally, the commission recommended the establishment of a committee to study local historic districts as a means for home owners to protect their property. The Selectmen responded by appointing a Local Historic District Study Committee in the Fall of 1980.

The commission continued to foster historical awareness in town and throughout the area with two projects. First, the commission sponsored a reprint of the historical map of Easton. Costs were shared with the Bristol County Development Council, and the maps are available at the Town Offices and the Ames Free Library. The commission brought three lecturers to Easton as its contribution to the commemoration of the centennial of H.H. Richardson and Frederick Law Olmsted in Easton.

The members of the commission want to express their sincerest thanks and gratitude to Enis Almquist who retired from the Historical Commission after a long term of service. Mrs. Almquist was the secretary of the commission for many years, and her work in that capacity will be sorely missed. She was instrumental in many of the commissions preservation projects including the restoration of the Lock-Up. Thank you, Enis!!

Chairman

REPORT OF THE TREE, BUILDING AND GROUNDS SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for 1980.

Trimming of deadwood and removal of dead or dying trees continues throughout the town. Sugar maples being the species with the larger percentage. Brush along roadsides was cut as time permitted.

In May thirty-five (35) trees were planted in various areas of the town.

All elms were sprayed with Methoxyclur to control elm bark beetle in April. Sampling of suspected elms were taken for Dutch Elm Disease and specimens sent to the Shade Tree Laboratories for analysis. Trimming of diseased portions was accomplished if at all practical, otherwise diseased elms were removed.

Gypsy moth was again a big problem. Aerial spray by fixed wing aircraft was done in the first of June on approximately 1700 roadside acres. All other roadsides were done with our truck mounted mist blower. It appears from egg counts taken, aerial survey and visual observation that this coming year will be bad also.

Samples taken for oak leaf tier and lecanium scale has shown a drastic reduction in eggs. This should be helpful to trees that were affected the last two or three years.

Poinson ivy eradication was done for all who requested this service.

Cemeteries, little league fields and other public areas were cleaned of debris and mowed when needed. A growth retardent was applied to all cemeteries and eliminated several weekly mowings. Gravestones were straightened and repaired as needed.

The new well, pump and chlorine system was installed and operational before the swim classes started at the swimming pool and worked out very satisfactorily. The pool drainage system had to be dug out and replaced. It had been stuffed with all types of debris and all efforts to unclog the system were unsuccessful.

Two new sections of the boiler at the Police & Fire complex had to be replaced when a bad leak was discovered. Maintenance was an ongoing thing throughout the year on buildings and the pool and grounds.

I wish to thank the Division heads and their personnel and the personnel from my departments for their help and assistance throughout the year.

Respectfully submitted,

Daniel B. Amorim
Tree, Building & Grounds Superintendent

REPORT OF THE DIRECTOR OF PUBLIC WORKS

To the Honorable Board of Selectmen:

I respectfully submit the report for the year 1980.

The Division Superintendents have described the activities of their departments in their individual reports.

The Engineering Department has designed several Town projects including the reconstruction of Turnpike Street, the design of a drainage system for a portion of Depot Street and Drake Street along with several smaller drainage projects at various locations. Plans and specifications were prepared for items put out for competitive bid. A high precision land survey was performed on a 57 acre parcel of Town land at Red Mill Road. A new gravel packed well will be constructed at this site. Numerous inspections were conducted and reported prepared for the Planning & Zoning Board and the Conservation Commission.

With the return of the Engineering Department to full strength we can proceed with a much needed planning program for the future and the development of an updated record keeping system.

Our Maintenance Department has done an admirable job in keeping our equipment in operating condition, but with the rising costs of parts and aging equipment it becomes more difficult and costly each year.

I thank all of the employees of the Department of Public Works for their cooperation and the Town Administrator for his assistance.

Respectfully submitted,

Walter O. Davis
Director of Public Works

REPORT OF THE BOARD OF HEALTH

To the Citizens of Easton:

In compliance with the General Laws of Massachusetts, it is our pleasure to herewith transmit to you a summary of the work done under the jurisdiction of the Board of Health for the year of 1980.

At the annual election in May, Charles L. Hattaway, Jr. was elected. Dr. Herbert L. Everett did not run and the Board wishes to express its appreciation to him for the nine years which he so ably served the Town. At the organizational meeting, Donald F. Craig was re-elected Chairman. Other appointments made by the Board include: Plumbing Inspector George E. Sawyer, Assistant Plumbing Inspector Robert F. Govey, Health Agent Everett W. Ericson, Milk and Animal Inspector John D. Melin and Agent for Burial Permits and Dangerous Diseases Mary P. Connolly. The garbage contract is in its final year with Manuel Soares of West Bridgewater. Laboratory Services as needed are provided by Oliveria's Laboratory. Nursing services are provided under agreement with the Community Health Agency, Inc. as of July 1, 1981.

Easton enjoyed a relatively healthy year with the following diseases reported: Dog Bite (52), Cate Bite (8), Horse Bite (1), Squirrel Bite (1), Skunk Bite (1), Chickenpox (18), German Measles (1), Gonorrhea (5), Infectious Mononuclosis (1), Salomonella (11), Scarlet Fever (3), Strep Infections (48), Meningitis (4), Pertusis (2), Infectious Hepatitis (1), Hepatitis (1), Tuberculosis (1).

After 84 years the Easton Nursing Association closed its doors on June 30, 1980. The services rendered by the nurses and volunteers through the years has been of the highest caliber and is gratefully acknowledged by the Board of Health.

Plumbing Inspector George E. Sawyer reports that 198 permits were issued in 1980. Each permit requires at least two inspections.

John D. Melin, Milk Inspector, collected samples of milk throughout the Town including schools and restaurants. Samples were tested at Oliveria's Laboratories and notices sent. All milk dealers and users were licensed.

During the year inspection of all dairy cattle, dairy cows, horses, ponies, sheep, swine and beef cattle were inspected by the Inspector of Animals. Animal bites were followed up and the animal quarantined for the ten day period required by Law.

Many inspections were made under the application public health codes and the DEQE codes. Follow-ups were made and the necessary corrective action taken.

Death Certificates of all persons who died in Easton were certified, burial permits issued and filed with the Town Clerk. Premature births reported to the Board had the necessary follow-ups.

Septage Disposal is becoming a serious problem in the area and the Board is working with the various agencies involved to properly address this problem.

The Board and its staff continue to attend many seminars, meetings and classes to keep abreast of Laws, Rules and Regulations.

The annual rabies clinic for dogs was held in the spring. Dr. William Lloyd was in charge and the cooperation of the Dog Officer, Animal Inspector and the Director of Public Works was appreciated.

Through our contract with the Community Health Services, screening clinics for the elderly, well child conferences, immunization programs, mantoux testing, lead paint screening, flu immunization clinics and many other preventive health measures were taken. We have worked closely with the School Department and their nurses in the various health prevention programs and in follow-up of diseases.

Permits issued by the Board include: Funeral Homes, trailer park, day camp, campground, non-alcoholic beverage manufacturer, transport offal, disposal works construction permits, installers, food service establishments, mobile food service establishments, massage, milk, plumbing and to operate swimming pools.

Up-to-date immunization requirements for foreign travel are kept at the office and health certificates for passports may be obtained and validated at the office.

The Board works closely with local, regional and state agencies in a continued effort to safeguard the Town and the Townspeople in the matters of Public Health. The Board appreciates the cooperation of the other Agencies in the Town. We wish to thank the League of Women Voters representation at the meetings of the Board.

Respectfully submitted,

Donald F. Craig, Chairman
George M. Luke
Charles L. Hattaway, Jr.

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

I hereby submit the Report of the Easton Fire Department for the year ending December 31, 1980.

During this period the Department responded to 2460 calls; 1612 for apparatus and 848 for ambulance.

We are now in the process of replacing one of the two pieces of apparatus that is over 24 years old. A new Class A Pumping Engine was voted at the May 1980 Town Meeting and this truck is expected to be delivered to the Fire Department in late Spring or early Summer 1981. A new ambulance was also voted at the May Meeting and was delivered in September 1980. Only by replacing equipment on a regular basis of 20 years, and keeping a good preventive maintenance program, can we hope to have our apparatus serve us well now and in the future. Our 1974 Maxim Engine which is our first piece out on most calls, and the most extensively used, is in need of immediate repairs to the body of the truck due to rust conditions. These repairs will have to come out of the Capital Budget.

Four full time firefighters were appointed to the Fire Department in September 1980. They attended the Massachusetts Fire Academy in Stowe, Massachusetts for seven weeks of fire related training. At the present time we have 6 regular firefighters on duty divided between two stations and a third station when we are not running one man short due to vacations, holidays or sick leave. This still leaves little or no time for inspections, permits, in-service training, repairs and other fire-related duties.

It is still necessary for off duty permanent men to answer calls due to members of the call department working out of town and not being available.

The population at the december 1980 census stated that we have 16,600 people living within the Town of Easton. Stonehill College has another 2300, plus people within their campus. We also have to take into consideration the number of students in our Regional High School plus the other citizens that travel our three major highways, Routes 138 - 123 and 106. The apartment houses and regular dwellings constructed and new streets build, are still outgrowing the protection that they deserve and what we can give them.

Our Ambulance Service is finding it difficult to properly do the job that it is trained for, but with the addition of a new Class One Ambulance that we received in late 1980, and the use of our old Class One for a backup ambulance, we can now give better service with quicker response from within our own town when the need is there.

Every year the fire calls increase, every year the ambulance calls increase, every year the demand for our services in other areas increase. We cannot maintain our present "stretched thin" protection programs and satisfy the demands for service in our community. Insurance underwriters' reports use the "good rule of thumb," one on-duty firefighter per one thousand population ratio. To meet this goal we have to institute a program of additional men to our force now and also in the near future.

We are now extending our Fire Alarm Program to bring protection to the outer sections of town and the new streets and developments within the town. The Fire Alarm has been extended to the Greenwood Village on Foundry Street, Gallahad Way off of Beaver Dam Road, Randall Farm Drive off of Randall Street, Leisure Lane off of Purchase Street, and into the Easton Industrial Park off of Belmont Street.

Much of the equipment used by the Fire Department is old and out-dated and parts, if found, are at a premium price. Needless to say, this is due to the tough and rugged use the equipment receives in our line of work.

As I have mentioned in previous reports, we must extend our water mains to streets not covered and increase the size of the mains along Route 138 and place hydrants on these mains. Another tank should be placed in the Unionville area.

I would like to thank all Town Officials and Departments and Department heads for the cooperation and assistance rendered my Department in 1980 and look forward to a continuing relationship of mutual cooperation in 1981.

Respectfully submitted,

C. Robert Mitchell
Fire Chief

REPORT OF THE GAS INSPECTOR

To the Honorable Board of Selectmen:

I hereby submit my annual report as Gas Inspector for the Town of Easton.

For the year 1980, 194 permits were issued for gas installations.

Most new houses and conversion burner installations require 2 inspections, resulting in a total of 248 inspections.

Respectfully submitted,

Robert A. Govey
Gas Inspector

REPORT OF THE POLICE DEPARTMENT

To the Honorable Board of Selectmen:

1980 was a year that produced a slight increase in motor vehicle accidents and a slight decrease in Breaking and Enterings.

In an effort to reduce accidents, there was a substantial increase in the number of citations issued. However, it failed to produce the desired results. This coming year we plan to use more selective enforcement.

We had a clearance rate of approximately eleven percent (11%) on Breaking and Enterings which is slightly below the national average; but we are hopeful that the increased personnel will allow us to use more than one man as a Detective.

There has been a marked change in personnel in the past year. Five new Officers were added: two new positions and three to fill in for a retirement and two resignations.

I would like to thank my Officers and fellow Town employees for their cooperation this past year.

Respectfully submitted,

Walter Healey
Chief of Police

REPORT OF THE CIVIL DEFENSE DIRECTOR

To the Citizens of Easton:

Following is a very brief summary of the activities of your Civil Defense Agency for the year 1980.

During the year we responded to 26 traffic accidents, 13 fire alarms, 19 special details, and 44 police patrols. We provided emergency lighting at three night-time water main repairs.

One of our vehicles has been used since early fall by members of the Fire Department for transportation to the Fire Academy in Stowe and is now in use for the same purpose by the Police Department to the Police Academy in Framingham.

I would like to thank the members of the department for the many hours they gave to keep things running and for the many times they were called out in the middle of the night or during severe weather to assist the Police or DPW with lighting or roadblocks or traffic control. In many cases they have given up a day off to assist with traffic control at a parade or a roadrace.

Well done!

Donald S. Winship, Jr.
Director of Civil Defense

REPORT OF THE EASTON HOUSING AUTHORITY

To the Residents of Easton:

The Authority's 144 elderly and 3 family housing units have been tenanted for the entire calendar year of 1980. Occupancy waiting lists number over 100 persons. The Office of the State Auditor completed an audit of the Authority's books in April of 1980. Their finding noted conformance with State procedures. The Authority appreciates the efforts of the Town and its citizens for their continued support of current and planned housing programs in the Town of Easton.

REPORT OF THE RECREATION COMMISSION

To the Citizens of Easton:

Major renovations were completed at the Town Pool in 1980. These included the installation of an automatic chlorination and pumping system to feed water from the newly dug well to the pool. Because of the improved water quality, swimming lessons, swim team and open swim drew large numbers of residents.

Many children enjoyed arts & crafts, team sports, special activities and five field trips which were a part of the summer playground program. Tennis lessons, the Placekick-Punt-Pass Competition at Schaefer Stadium and downhill ski lessons for children were popular offerings.

Many of the town's adults showed continued enthusiasm for the open gym program, women's and co-ed volleyball, aerobic dance classes and men's softball. Our senior citizens enjoyed the Spring Festival and Fall Barbecue.

The Commission hopes to continue as many of these popular programs as possible and expand those which are self-supporting.

We would like to thank the many employees for their hard work along with town officials and residents for the support they have offered in the past year.

REPORT OF THE FINANCE COMMITTEE

To the Citizens of Easton:

The members of the Finance Committee have the laborious task, this year, of scrutinizing each budget, line item by line item, in order to make the required cuts in compliance with Proposition 2½. Inflation is effecting every household, and we are all aware it is more difficult to make ends meet. The town, unfortunately, is not exempt from these rising costs. With Proposition 2½, however, we must, somehow, arrive at a solution of operating the town with less revenue than fiscal year 1980-81. You can see the dilemma that was presented to the Finance Committee. It was an enormous and pain-staking task that faced this committee, and I commend my fellow committee members for their unprecedented time, energy, and devotion.

We have spent many hours discussing, reviewing and rediscussing all budgets. There will be recommendations which will not be very popular, but the committee had to make their decisions within the boundaries of Proposition 2½. With very few exceptions, no departments can escape cuts this year. Priority needs became the first order of business. Finding approximately \$450,000 to cut from last year's budget is almost an unthinkable task. Some departments may have to be totally eliminated. Others may have to be cut to the bare bone.

The figures presented in this book are not necessarily final figures. They could change, depending upon the state cherry sheets which we had not received when this book went to press. Less money from the state would mean more cuts; more money from the state would mean less cuts. We have no way of knowing at this time how much money the state will return to the town. It is expected that with new figures and information being given to us by the Town Administrator as the budget review progresses, updated figures will be available at the town meeting. We are still reviewing budgets and will continue to do so until the town meeting is adjourned. Due to the fact that the budget review process was on going at the same time as the special town meeting poll was being conducted, certain departments do not have figures in this report. Our goal is to meet the required cuts necessary and yet obtain the best service possible for our tax dollars.

While we are an elected body who answers solely to the townspeople, we try to work effectively with all departments, yet we recognize that we are in no position to mandate changes in spending patterns and habits. We do feel, however, that we have made such significant money saving suggestions to various departments, and, in some cases, the suggestions have been well received. For example, as a result of our efforts, approximately \$15,000 has been returned to the town on ambulance billings as well as \$1,700 from the Board of Health.

REPORT OF THE VETERANS' SERVICES DEPARTMENT

To the Honorable Board of Selectmen:

Since September 1980 the Veterans' Services Department has operated as a full-time, rather than a part-time, office, thus providing greater access to information and services for veterans and their dependents.

After seven months of fiscal 1980-81 Veterans' Benefits expenditures are slightly more than 50% of the appropriation. Expenditures for the remainder of the year are difficult to predict but are expected to be within the budget.

This department works with the Massachusetts Office of Veterans' Services and the federal Veterans Administration to provide services and information to veterans and their dependents. Town residents are urged to make use of the department for assistance with veterans affairs.

Respectfully submitted,

Maria S. White
Veterans Agent

REPORT OF THE OLD COLONY PLANNING COUNCIL

To the Residents of Easton:

It is again our privilege and pleasure to present this yearly report outlining the activities of the Old Colony Planning Council. During the past year the Council was again involved in a broad spectrum of activities which either have or will significantly benefit the member communities and the citizens of the Old Colony region. These activities have also resulted in important accomplishments for the Old Colony Planning Council.

During the past year the Council applied for and was designated as the Area Agency on Aging (AAA). This designation was the result of a highly competitive process in which elderly service and planning agencies were evaluated by the State Department of Elder Affairs.

The designation adds a new planning responsibility which will enable the Council to plan for the allocation of federal funds and to coordinate services for the elderly under the Older Americans Act. The Council is the first and only regional planning agency in the Commonwealth to be designated as an AAA which is viewed as a new approach by the state in providing for the care and problems of the aged. In this new role the Council will be responsible for monitoring and evaluating the provision of services to the elderly.

The designation of the Old Colony Economic Development District (EDD) this past year by the Economic Development Administration, was the result of eight years of effort by the Council. Prior to this designation, the Council conducted its economic development planning on a part-time basis. The designation and the resultant funding have allowed the Council to mount a full-time economic development planning and programming effort.

Other important activities of the Council in the past year included: a Comprehensive, Coordinated and Continuing Transportation and Transit Planning effort; and, Planning for the land use, housing and water quality needs of the area's communities. During the year the Council moved to new offices at 9 Belmont Street in Brockton which has facilitated increased efficiency in the Council's planning activities.

We attribute our accomplishments during the past year largely to our ability to develop a close working relationship with our locally elected officials; the state administration, and the representatives of the various federal funding agencies.

This past year was a particularly rewarding year for us as your delegates to the Old Colony Planning Council. We again look forward to serving you with confidence that we can achieve a higher level of accomplishment that will continue to build upon our past efforts. Towards this end the Council will be

placing more emphasis on technical assistance to our member municipalities in assisting them in dealing with the problems of the eighties.

Respectfully submitted,

Richard H. Chase, Delegate
Edmund McAdam, Alternate
Old Colony Planning Council

REPORT OF SELF HELP INCORPORATED

To the Town of Easton:

Self Help, Inc., is greater Brockton's anti-poverty agency dedicated to improving the quality of life of limited-income individuals and families, and making all segments of the community responsive to the needs of limited-income, disadvantaged and minority needs.

During the program year ending September 30, 1980, Self Help, Inc., received a total funding of \$6,088,906 and provided 273,916 direct services to the area's limited-income individuals and families. Easton residents received 278 direct services totaling \$85,284 during our program year.

The total funding of 6 Million dollars does not tell the real value of human services delivered to the area as a whole. Self Help's funding enabled us to mobilize an additional \$2,411,094 of other community resources such as CETA, Commonwealth Service Corp., and local City and Town contributions as well as volunteers. The gross volume of Self Help, Inc., during the past program year was 8.5 Million.

Self Help currently employs 178 individuals, many of whom are limited-income and minorities.

We feel that the program year 10/1/79 to 9/30/80 was a successful one for Self Help, Inc., and very helpful to our limited-income population. We thank the area's Board of Selectmen, town volunteers and the Selectmen's representative, Ms. Jean Kent to our Board of Directors for helping to make our program a success.

Respectfully submitted,

Ulysses G. Shelton, Jr.
Executive Director

REPORT OF THE EASTON PLANNING & ZONING BOARD

To the Citizens of Easton:

For approximately the past ten years, your Planning & Zoning Board has been actively and diligently pursuing positive steps to achieve sound community planning. The various components of town planning requires a continuing process integrated with a myriad of details involving individual's intended use of land within the community. The overall town interest in maintaining a quality environment compatible with the needs of the inhabitants must be carefully balanced to allow, on one hand, the individual's rights being preserved while protecting the public interest for the health, safety and welfare of the public.

Many of the problem areas confronted during the 1970's have been resolved while many new concerns have been coming into focus. For the most part, our regulations adopted in the early 1970's have been a solid foundation for community growth. The cooperative effort by appropriate town bodies carefully reviewing proposals has been a very successful technique used to ensure satisfactory land use planning.

The Board encourages public participation through public hearings and workshop meetings to permit residents to voice their concerns. A previous Town Meeting mandate required the Planning & Zoning Board to undertake a study and prepare a report recommending a community growth management policy. We have carefully researched the various growth management tools available in a professional manner objectively examining each technique and its impact on Easton's growth. Our effort to be objective in our approach with practical solutions toward the actual implementation of each component of growth management is our charge. The implementation of various warrant articles will require support from the townspeople in an effort to manage the various aspects of community growth.

During 1980 considerable time was devoted to the research phase for the preparation of the Growth Management Study. Workshop meetings open to the public were held with town departments and Old Colony Planning Council to gather facts pertaining to growth impact problems. Data was also solicited from banks, lending institutions and other communities. The report provides recommendations for effective growth management.

In addition, the Board devoted time to:

- .1 extensive design review of subdivisions;
- .2 site plan review;
- .3 physical monitoring and inspections of subdivisions;
- .4 consultation with other departments and committees regarding problems of mutual concern;
- .5 review with federal officials regarding flood plains;
- .6 continued implementation of cash bonding for subdivisions

Twenty-seven plans not requiring approval under the subdivision control law were approved.

Six subdivisions were approved—"Bay Village" off the westerly side of Bay Road and the southerly side of Rockland Street having five lots; "Chestnut Knoll Estates" located off the northerly end of Harlow Street and the easterly end of Cosma Road having 119 lots; "Lakeside At Easton" located on the westerly side of Lyman Wheelock Road and the northerly side of Short Street having four lots; "Longview Estates" located west of Allen road containing 33 lots; "Land Prepared for Richard W. Martin" located off Summer Street having four lots; and "Springhill At Easton" located off Elm Street to be developed as a Cluster Residential Development containing 51 lots.

One preliminary subdivision was submitted—"High Plains At Easton" located off Highland Street having sixteen lots.

Thirteen site plans were approved—Charles P. Barboza for a six-unit apartment at 397 Bay Road; Burger King Corporation for a restaurant off Washington Street; John Robichaud for Christmas Carols at 187 Washington Street; Dennis Contre for Florist Shop at 72 Washington Street; Easton Industrial Park for industrial building on Norfolk Avenue; Easton School Department for a bus parking area off Lothrop Street Extension; Dean Oil company for restricted ingress and egress at 650 Washington Street; Isabelle Grace Hyde School, Inc. at 56 Turnpike Street; McDonald's Restaurant at 639 Washington Street; Sundells Inc. for relocation of gasoline facilities at 72 Main Street; Robert Taylor for an Antique Country Store at 19 Belmont Street; U.F.C. Realty Trust for condominiums at Rtes. 138 and 106; Hugh Young for apartments and professional use at 116-118 Washington Street.

The Board greatly appreciates the continued effective, competent secretarial services of Jean Hayward. We also wish to express our gratitude to Barbara Paras, who was also our secretary from 1972-1980. Her assistance and enthusiasm will be missed.

The engineering services of James Thompson, acting as an agent of the Board, will also be missed. Jim's efforts and cooperation were greatly appreciated.

The Board continually tries to maintain a professional standard to achieve practical solutions to Easton's complex land use problems. The continued active support and cooperation from all concerned citizens who have worked with us in the pursuit of good community planning is greatly appreciated.

REPORT OF THE BRISTOL COUNTY MOSQUITO CONTROL PROJECT

On June 30, 1981 the Bristol County Mosquito Control Project will complete twenty-two years of service to the cities and towns of Bristol County.

During the 1980 spring season the mosquito population seemed to be lighter in some areas and normal to heavy in others. This was due to the varying amounts of standing water throughout the county, the areas with the most water having released a large brood of mosquitos and the drier areas less.

Our spray program got underway on the 19th of May with seven Loco ultra low volume sprayers being put into service. In past years we sprayed mainly on request but this practice is not feasible as many calls come in from areas where little or no mosquito breeding exists. Spending time in such areas and not getting to the source has little, if any, effect in reducing a mosquito nuisance. This year all known breeding areas were plotted on the large topo map of Bristol County that is fixed to the wall at our headquarters. It was from this map that the spray crews worked each day and in these areas that most of our spraying was done. This method seemed to work well as we were able to knock down the spring brood earlier and more completely this year. As we reduced the spring brood in appreciable numbers, it then became possible to expand our spraying program into the more residential areas.

Our light trapping program was further proof that we had succeeded in our efforts to reduce the mosquito population. By mid-summer, all daily light trap collections were extremely low with some traps now going day after day without any mosquitos being caught. There were no cases of human encephalitis in Bristol County this year which I feel further substantiates the importance of an organized mosquito control project.

In late September, a need for adult mosquito spraying no longer existed and all crews turned to ditch maintenance and water management. More time and effort is devoted to this facet of the mosquito control program as it is the most important. Water is absolutely essential to the existence of mosquitos in that three of its four life stages occur in water: the egg, larvae, and pupa. It is only through source reduction that we can hope to gain permanent control.

Our tractor-trenchers work year round both on the salt marsh and in upland swamp areas cleaning existing ditches and constructing new ones wherever needed. We can often get good results by controlling the depth and flow of the water in an area without having to drain it completely. All proposed water management work is surveyed before the actual work is to begin. Should it be determined that such work would have a lasting detrimental effect on the environment, then other methods will be applied.

Our pre-hatch work for December 1979 to late March 1980 was far below average due to the fact that most of the areas that would normally have been dusted were dry most of the winter months, filling with water in the early spring.

The Bristol County Mosquito Control Project has purchased 9 new dusters to be used this winter in our pre-hatch work. This is where we go out into swamp areas that do not have any runoff and dust the ice with a pesticide. The adult mosquitos lay their eggs in the swamps in late summer and early fall making it necessary to dust as many of these areas as possible before the larvae emerges in the spring. The more areas that are dusted in the winter, on the ice, the less mosquitos to emerge as adults in the spring. The spring brood is usually the largest of all the hatches, so by reducing them you can considerably cut your mosquito population for the rest of the year.

At the close of 1980, aside from our regular spray program, we treated 334 breeding catch basins with Altesid Briquets and cleaned 5,835 feet of exisiting streams and brooks of brush and debris.

In 1981 we shall continue to expand and improve our equipment and methods of mosquito control so that we can serve the people of Bristol County to the best of our ability. The cooperation of the cities, towns, and the people is needed and greatly appreciated, for without your support, we would be unable to operate.

We, at the Bristol County Mosquito Control Project, would like to extend our sincere thanks to the Town of Easton for their continued support and cooperation.

Respectfully submitted,

Alan W. DeCastro
Superintendent

REPORT OF THE NORTH EASTON REVITALIZATION COMMITTEE

The Committee viewed 1980 as the year to work for implementation of portions of the revitalization plan drawn up by consultants in 1979. Progress was made in two areas: public works and the rehabilitation of buildings.

Recognizing the need to Town commitment to up-grading the business district, the Committee joined the Board of Selectmen in securing from Town Meeting an appropriation for the preliminary engineering of Main Street. The Easton Department of Public Works and a consultant will carry out the engineering aspect of the study, with our Committee providing information on historical, environmental, and aesthetic matters. Although full implementation is uncertain now because of possible federal funding cutbacks, the project will be carried by the study to a "go" stage, so that funds, when available, can be put to work to rebuild Main Street.

In September 1980 a Commercial Area Revitalization District (CARD) project was approved for the business district. One property owner took advantage of CARD's loan guarantee program to secure financing to rehabilitate the business district's largest building. At year's end, other CARD projects were in the planning stages. Two property owners undertook substantial refurbishing of their buildings with private funds.

Our Committee also serves as an information channel. In March, 1980, it held a workshop on federal programs for small businesses, with the collaboration of the Old Colony Planning Council. Throughout the Spring, our Committee supervised a Stonehill College student, working as an intern on an Economic Development Administration grant, who began a file on each business district property. Information in these files includes assessors' valuations, property lines, and historical data, which will be of use to planning groups and to property owners.

TOTAL OPERATING BUDGET

BUDGET NOTES

1. Selectmen's recommendations for Salaries and Wages include increases required under existing Collective Bargaining contracts.

2. Public Works budget has been consolidated to effect savings (\$7,000) and allow greater flexibility in assigning men and equipment. Individual division budgets would be as follows:

<i>Division</i>	<i>Salaries and Wages</i>	<i>Expenses</i>	<i>Total</i>
DPW - Eng. & Adm.	\$112,276	145,560	156,836
Highway	200,014	95,795	295,809
Tree & Moth	67,436	14,482	81,918
Bldgs & Grounds	30,529	103,360	133,899
Landfill	44,117	35,435	79,552
Totals	\$453,372	\$294,632	\$748,004

3. The following costs are appropriated from Water Division Reserves, rather than general tax revenues:

Water Division - Operating Budget	\$286,952
DPW Administration	30,000
Water Division Debt & Int.	164,423
Insurance & Pension costs	28,800
Total	\$510,175

4. The School Committee budget will be adjusted prior to the Town Meeting based on the best information of available resources and in accordance with current legislative requirements.

TOWN OF EASTON
ANNUAL TOWN MEETING
WARRANT

April 13, 1981

COMMONWEALTH OF MASSACHUSETTS

BRISTOL, SS

To either of the Constables of the Town of Easton in the County of Bristol.
GREETINGS:

In the name of the Commonwealth, you are hereby directed to notify and warn the inhabitants of the Town of Easton qualified to vote in elections and town affairs to meet in the Oliver Ames High School Gymnasium in said Easton on Monday, the 13th day of April, next, at 8:00 p.m. then and there to act upon the following Articles:

ARTICLE 1. To see if the Town will vote to accept the reports of the Selectmen, Assessors, Board of Health, Town Clerk, Treasurer, Collector of Taxes, School Committee, Town Accountant, Director of Public Works and any other Board and Committee of the Town, or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 2. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray the Town charges for the ensuing year including the salaries of the several elective and appointed offices of the town and make appropriations for same, or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 3. To see if the Town will vote to authorize the Treasurer with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning July 1, 1981 in accordance with the provisions of General Laws, Chapter 44, Section 4, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with General Laws, Chapter 44, Section 17 or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 4. To see what sum of money the Town will vote to instruct the Assessors to use from surplus revenue to reduce the tax levy for the current year, or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 5. To see if the Town will vote to authorize the Board of Selectmen acting for and in behalf of the Town to purchase, acquire by gift, or to take by Right of Eminent Domain, for highway purposes two certain parcels of land purported to be owned by George E. Brodie, Jr., et ux, as shown on a plan of land entitled "Subdivision Plan of Land in Easton, Massachusetts prepared for Richard W. Martin, scale 40 feet equal one inch, Sept. 13, 1980, C.A. Pickering Associates, Inc." on file with the Town Clerk's Office, or take any other action relative thereto.

Submitted by Planning Board

ARTICLE 6. To see if the Town will vote to amend the By-laws of the Town by inserting after Article Number 29 the following new Article:

ARTICLE 30. *License for Purchase and Sale of Precious Metals*

1. LICENSE:

A. Every person in the business of purchasing precious metal(s) shall be licensed.

B. The fee for the license shall be \$500.00 for the owner of the business, and \$100.00 for each employee.

C. There will be no transient buyers of precious metals in the Town—i.e. 15 days or less per month of operation.

D. The license shall be renewed yearly.

E. The owners of the business shall be required to be bonded. The amount of the bond shall be not less than \$25,000.

F. There will be a statement on the license as to whom the licensee will be selling the items purchased. If that person or company changes, notification is to be made to the licensing authority.

G. Prior to the issuance of a license, a records check will be completed by the issuing authority. Any expense incurred will be borne by the applicant.

H. The license shall be displayed in plain view on the premises where business is being transacted.

I. The number of licenses issued shall be no more than two.

2. SCALES:

A. The weight to be used and the type of scale to be used shall be prescribed by the Sealer of Weights and Measures.

3. PURCHASE:

A. All purchases shall be recorded in a bound book. The book shall contain the following information: name, address, age, time, date, description of items sold, and signature of person selling items. This book shall be open for inspection by authorized persons.

B. There will be no purchase from a minor.

C. A report shall be filed with the Chief of Police daily on the forms provided by him of all purchases made that day.

D. Positive photo I.D. from everyone selling any item. C 266, S 142-A.

E. A photographic record of all sales—i.e. department store check machine. Person and items to be sold to be photographed.

F. All purchases of precious metals shall be made on license premises only.

4. HOURS OF OPERATION:

A. The hours of operation shall be from the time of 9 a.m. to 6 p.m. six (6) days a week; closed on Sunday.

5. HOLDING PERIOD:

A. There shall be a 10-day holding period for all items purchased.

B. All items purchased shall be held at a place designated by the purchaser, but shall be made available to the Police Department upon request.

C. The purchaser shall put the current market price at the weight at which they are buying.

D. If purchasing from other dealers, the licensee shall maintain the same records and the same book and hold for the same period as previously stated.

6. PENALTY:

A. The penalty for violation of any of these provisions shall be One Hundred Dollars for each offense, and revocation of license,

or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 7. To see if the Town will vote to adopt the following new schedule of fees to be charged by the Town Clerk, to become effective July 1, 1981, in accordance with G.L. Chapter 262, Section 34, and amended by Section 73 of Chapter 329 of the Acts of 1980.

Submitted by Planning & Zoning Board

ARTICLE 17. To see if the Town will vote to accept the proposed amendments of the "Zoning By-law of the Town of Easton" by:

1. In Section VII SPECIAL PROVISIONS, insert a new Sub-section 7-13 to read as follows:

7-13. RATE OF DEVELOPMENT: The purpose of this Section is to relate the timing of residential development to the town's ability to facilitate the adequate provision of transportation, water, water supply, drainage, sewerage, schools, parks, open space and other public requirements, and thereby to promote the health, safety, convenience and welfare of the inhabitants of the town, by regulating the maximum rate at which individual developments may proceed.

A) Building permits for the construction of dwellings on lots held in common ownership on the effective date of this provision shall not be granted at a rate per annum greater than as permitted by the following schedule commencing in the year such lots are subdivided or in the year this provision becomes effective whichever is later.

B) For such lots containing a total area of land sufficient to provide more than ten dwellings at the maximum density permitted under these by-laws for the District in which such lots are located; one-tenth of the number of dwellings permitted to be constructed or placed on said total area of land based on said maximum permitted density.

C) For such lots containing a total area of land insufficient to provide ten or more dwellings at the maximum density permitted under these by-laws for the District in which such lots are located: one dwelling.

D) Any lots in a subdivision covered by this provision hereafter sold or otherwise transferred to another owner shall include in the deed the earliest date on which construction may be commenced in accordance with these provisions. A Rate of Development Covenant approved by the Planning & Zoning Board shall be filed by the landowner at the Bristol County Northern District Registry of Deeds with the approved subdivision plans or subdivision approval not required plans.

E) Insofar as the subdivision is not exempted by G.L. Chapter 40A, Section 6, from the provisions of this by-law, the period of time provided under G.L. Chapter 40A in which a subdivision is not affected by zoning changes is hereby extended during the duration of this by-law so as to protect such subdivision against further changes in use and density requirements,

or to take any other action relative thereto.

and Board of Selectmen

ARTICLE 19. To see if the Town will vote to accept the proposed amendments of the "Zoning By-Law of the Town of Easton" by:

1. In Section V USE REGULATIONS, insert a new Sub-section 5-4 to read as follows:

5-4. GROUNDWATER PROTECTION DISTRICT

A. Purpose—The Groundwater Protection District and the regulations herein have been established with the following purposes intended:

1. To facilitate the adequate protection and provision of the community water supply through preservation and maintenance of the ground water table;

2. To protect and preserve the inland wetlands and water courses in order to safeguard the purity of inland waters and for the protection and propagation of the food chain supportive of marine life;

3. To encourage the most appropriate and suitable use of the land.

B. Location—The Groundwater Protection District is established as an overlay district and shown on a map titled "Town of Easton, Massachusetts Zoning Map" dated March 7, 1973.

C. Permitted Uses—In the Groundwater Protection District, except as provided herein and in D and F below of this paragraph, no building or structure shall be erected, constructed or otherwise placed or moved for any purpose except the following, which are permitted as a matter of right:

1. Conservation of water, plants, and wildlife, including wildlife management shelters.

2. Legally permitted outdoor recreation not requiring development or landscape alteration in conflict with the purpose of this district including nature study, fishing, hunting, and foot-bicycle-horse paths.

3. Grazing, forestry, and other farms consistent with the purposes of this district.

4. Municipal water supply facilities including retention ponds, wells and pumping stations.

D. Permitted Uses by Exception

1. The Board of Appeals, after a public hearing and after the application for a special permit has been referred to other municipal agencies as provided in Section Two (2) of this Subparagraph, if it is established to the satisfaction of the Board of Appeals that a proposed use will not interfere with the general purposes for which Groundwater Protection Districts have been established and will not violate the provisions of Section Three (3) of this Subparagraph and will not be detrimental to the public

health, safety, or welfare, may grant a special permit for any use permitted as a right in said district, except such uses enumerated in Subparagraph E of Paragraph 5-4.

Applicant for such permit shall provide the Board of Appeals with an original and five copies of the application for a special permit. The application shall include a plan prepared and certified by a registered professional engineer or a registered land surveyor. This plan will show the location, boundaries, and dimensions of the lot, existing and proposed facilities, water courses and drainage easements, fill, means of access and proposed sewage disposal facilities, water courses and drainage easements, fill, means of access and proposed sewage disposal facilities if needed; test borings of sufficient depth to show location of peat, hardpan, other impervious materials and ground water. The plan will also show existing and proposed ground contours and 2-foot intervals.

2. The Board of Appeals will forward one copy of each application to the Building Inspector, Planning Board, Department of Public Works, Board of Health and Conservation Commission. These agencies shall then file written recommendations with the Board of Appeals within a fourteen (14) day period following the publication of the first public hearing notice.

3. The Board of Appeals may issue a permit under this section if it finds that the proposed development will not result in the following:

a. 1 percent or greater reduction in the ground water yield of the public wells in the District.

b. Pollution from either sewage wastes, storm water runoff, or other liquid wastes that would endanger the water quality of the public wells in the Districts

The burden of showing that the proposed development will not result in either of the above rests upon the developer, who shall provide such engineering and hydrologic data that is required by the Board of Appeals to make a determination of acceptability.

E. Prohibited Uses

In those portions of the Town so indicated on the accompanying Zoning By-law Map as the Groundwater Protection District, the following uses shall be prohibited except as allowed in Subparagraphs C and D above.

1. The storage of flammable, explosive, or toxic materials.

2. The dumping of toxic or hazardous waste materials.

3. The digging or drilling of a well which will draw in excess of 20 gallons of water per minute.

4. Construction of an on-site sewage disposal system within 800 feet of a well site.

F. Non-Conforming Uses—The provisions of this section shall not apply to any building or structure in the Groundwater Protection District in existence or for which building permits had been issued prior to the date of adoption of this section. Such buildings or structures may be repaired, altered, enlarged or rebuilt only when in compliance with all other sections or this by-law and applicable State and Town laws, provided that any such enlarged or rebuilt building or structure does not adversely affect the groundwater supply in the District.

G. Administration—When an application is made for a building permit on land which involves the use of land in the Groundwater Protection District, the Building Inspector shall require that the applicant for such permit, provide as part of such application, a plan of the lot on which proposed development is intended showing elevations above mean sea level at 2-foot contour levels, indicating the bench marks used and certified by a Registered Land Surveyor or Registered Engineer. The Building Inspector shall transmit a copy of the plan to the Planning Board, Department of Public Works, Conservation Commission and the Board of Health,

or to take any other action relative thereto.

ARTICLE 21. To see if the Town will vote as a result of the OCPC Growth Report, to recommend to the Board of Health that its Regulations as to Sewerage Disposal, and Sewerage Disposal System Permits, be amended in the following manner:

APPENDIX C — Amend Section 2b to read:

Two test holes must be excavated to a depth of not less than ten feet to determine the nature of the subsoil, presence of ledge, ground water, etc. The results must be shown on plan. A percolation test must be made at the proposed elevation of the bottom of the disposal field trenches, in the area in which the field is to be located. This must be shown on the engineer's plan. Only one percolation test is required for uniform soil stratigraphy. An allowance must be made for a minimum of four feet between the maximum ground water elevation and the bottom of the disposal field. All percolation tests and final inspections by the designing engineer shall be performed in the presence of a representative of the approving authority.

No percolation tests will be performed during the period June 15th through September 15th. If in the opinion of the Board of Health or its agent the percolation rate, soil suitability or water table level is in question, a percolation test will be required to be taken during the wet season, March 1st through June 1st,
